Being a Carer

Do you do jobs around the home, because the family member you live with needs your help?

Then, you may be a carer

This workshop is aimed at people with learning disabilities who live at home with a family carer or have close links to their family. They may have a caring role now or are likely to have a caring role in the future.

This workshop is not about stopping you from being with your family. We will talk about some of the things you can do to prepare for an emergency and about what help you might need.
