

Update 19th March 2020

ACTIVITIES – weekly/monthly

Following the latest Government update, we have decided to suspend all our child, adult and family sessions until further notice.

RESIDENTIAL & DAY TRIPS

Regarding our upcoming residential trips and day's out, we are awaiting confirmation from venues, in accordance with what the Government now advises them to do.

As soon as we have more information about these trips we will be in contact with families/adults – please be patient with us.

WHAT WE ARE DOING NOW

Because we can't run our sessions, it's important we all stay connected!

So...we are going to increase other ways you can stay in touch with us.

Our staff will be changing the way they support everyone, by working with families via Facebook, email, texts & phone calls.

It doesn't matter what you want to chat about – just know that we will have staff available to talk.

You might need help with the usual questions about EHCP's or PIP forms. You might just be anxious or feeling lonely and need to chat. You might need advice regarding financial help and support. Whatever it is, we want to be here for our families and make sure you feel you have a place to come for support, advice or staying in touch with a friendly listening ear.

In addition, we will be keeping you informed of other local information and support in your areas.

We will also be posting any useful ideas (as we are given them), to help families with finances during this time or to help with keeping the kids busy and learning whilst our schools are shut.

If you would like us to consider any other particular support or information updates, please let us know by commenting below, messaging our page, or emailing us at contact@asdfamilyhelp.org (and we will do our very best to help).

Thank you to all our families for their patience and we hope you all stay safe and well x
